

# Invitation

for participation in international science conference  
of the Higher School of Security and Economics

## **THE ARTIFICIAL INTELLIGENCE IN THE FIELD OF THE SECURITY – ADVANTAGES AND THREATS**

that will be held on 30<sup>th</sup> of September, 2022  
in the HSSE, Plovdiv, Bulgaria

### **THEMATIC DIRECTIONS**

#### **FIRST PANEL**

##### **Systems with artificial intelligence in the security**

1. The role of the artificial intelligence in collecting and processing of scouting information
2. The artificial intelligence in counteracting security risks
3. The fight with the fake news and artificial intelligence
4. Military applications of the systems with artificial

#### **SECOND PANEL**

##### **The artificial intelligence as a factor for economic growth and sustainable development**

1. Optimizing of the deliveries via artificial intelligence
2. Possibilities for increasing the manufacturing by using artificial intelligence
3. Artificial intelligence and circle economic
4. The artificial intelligence in advertising and e-commerce
5. The artificial intelligence in the finance: automation and banking

#### **THIRD PANEL**

##### **The artificial intelligence and the administration**

1. The automation on the working places – challenges and opportunities
2. The artificial intelligence in a help of managing of the corporations
3. The benefit from artificial intelligence in studding and employees' education
4. Impact of digital information on administration and management

#### **FOURTH PANEL**

##### **Public management, smart technologies and management of the human resources**

1. The smart technologies and the public politics – from theoretic conception to good practices
2. Management of the human resources in the context of the smart technologies and the artificial intelligence
3. The public management after COVID-19 – faster, more effective, more efficient, smarter
4. Competences and skills for the future - the challenges in a society focused on innovation and sustainable development
5. The future of the artificial intelligence – points of view and identification of the related sides

#### **FIFTH PANEL**

##### **Ethics and Artificial Intelligence**

1. Ensuring the ethical behavior of artificial intelligence systems
2. Building a trust in the work with artificial intelligence
3. EU legislative proposals in the field of artificial intelligence – the European Commission's proposal for an artificial intelligence legislation

#### **SIXTH PANEL**

##### **The artificial intelligence and the social sciences**

1. The artificial intelligence and the modern politic – is it possible a hybrid management
2. The sociological research, the artificial intelligence and the social manipulations
3. The journalism, media and artificial intelligence

#### **DEADLINES FOR SUBMISSION:**

**until May 30, 2022** – the Application for participation

**until August 30, 2022** – the report of the conference

#### **THE PARTICIPATION TAX:**

**50 Euro per person** and should be paid via bank transfer on:

Eurobank Bulgaria AD; IBAN: BG 97 BPBI 7924 1066 753909; BIC: BPBIBGSF

**Deadline for the fee – May 30, 2022.**

The application for participation, program and requirements for the formatting of the report will be published online on:
